Education

Beijing University of Posts and Telecommunications2021/09 – 2025/06

Computer Science and TechnologyBeijing, China

- Relevant courses: Operating Systems, Database Systems, Computer Networks, Data Structures and Algorithms

Work Experience

ZhuoShi Quant2025/06 – Present

Quant DevBeijing, China

- Low-Latency Networking:** Developed and maintained modern C++ networking components for production trading systems using Solarflare OpenOnload / ef_vi and Exablaze ExaNIC. Worked on Ethernet and UDP receivers and senders, multicast feed handling, packet filtering, DMA-registered packet buffers, receive-queue refill, event polling, and kernel-bypass transmit paths.
- Research Platform (Options Trading):** Developed a production pipeline that transforms pricing and market data from Protobuf messages in Kafka into Apache Arrow IPC batches, republishes them through Kafka, and materializes MessagePack-encoded tabular data in Redis for low-latency downstream consumption, and writes Arrow data to Apache Doris for OLAP workloads; optimized batching, serialization, ordering, deduplication, and restart recovery.

ZhuoShi Quant2024/12 – 2025/06

Quant Dev InternBeijing, China

- Trading-System Infrastructure:** Worked across exchange market-data drivers, trading gateways, execution services, schedulers, and shared trading-system libraries. Integrated exchange and broker APIs and supported both market-data and order-entry paths used by futures and equity trading systems.

Huawei Technologies2024/08 – 2024/12

Software Engineer InternNanjing, China

- AppGallery Connect (Huawei's App Store Connect)

Open-Source Contributions

HeraclesQL github.com/hudson-trading/heracles-ql

- Added PromQL support

Technical Skills

Programming Languages

- Modern C++, Python

Big Data Tools

- Apache Kafka, DuckDB, Redis

Languages

- English
- CET-4: 607, CET-6: 553

Mandarin

- Native

Other

Athletic Experience

- Secured admission offer from East China Normal University (ECNU) via athletic recruitment
- 4 * 400m relay Shanghai Youth Record Holder
- 100m, 200m, 400m National Level 2 Athlete
